

P300 INDUCTIVE SENSOR

P300 INDUCTIVE SENSOR

APPLICATION

For monitoring the speed of machinery in any process and linking the data into a speed module or PLC.

FEATURES

- Non-contact failsafe
- Two wire device - PLC compatible
- Universal voltage 24-240V AC/DC
- Two versions available for closed or open operation
 - Normally open P3002V10A
 - Normally closed P3001V10A
- IP65
- Hazardous area approved ATEX zone 21 Ex II 2DT100° C
- M30 x 1.5 ISO threaded body

Zone 21

ACCESSORIES

- Pt. No. **WG2-BR** - See 'Whirligig' combined target/bracket/guard
- Pt. No. **WG4-BR** - See 'Whirligig' combined target/bracket/guard

WEIGHT

0.2Kg/Each

PART NUMBERS / VOLTAGE

P3001V10A - 24-240V AC/DC

P3002V10A - 24-240V AC/DC

Detailed specification, wiring diagrams and installation/operating instructions available immediately upon request.
